

Bhutan – Happiness is a Place!

Bhutan often revered as the "Land of the Thunder Dragon" or 'Druk Yul', is still regarded as one of the last "Shangri-La's" in the Himalayan region because of its remoteness, its spectacular mountain terrain, varied flora and fauna and its unique ancient Buddhist monasteries.

This country of rolling hills and towering crags certainly exudes charm. The mountains are magnificent, the forest are dense, the people are delightful, the air is pure, the architecture inspiring, the religion exciting and the art superb. Like timeless images from the past, the traveller encounters the full glory of this ancient land through its strategic fortresses known as Dzongs, numerous ancient temples, monasteries and stupas which dot the countryside, prayer flags which flutter along the high ridges, wild animals which abound in dense forests, foamy white waterfalls which are the ethereal showers, and the warm smile of its friendly people.

The tiny kingdom of Bhutan shares with Nepal the world's greatest concentration of mountains and living heritage of Buddhism. With its beautiful and largely unspoiled Himalayan setting, its rich flora and fauna and its vibrant Buddhist culture, Bhutan has become an increasingly popular destination for travelers. In addition to generating hard-currency revenue, tourism is also providing impetus for the development of services sector and hence balanced and holistic development of entire region.

Day 02: Thimphu Sightseeing

After breakfast, proceed for the guided tour of city's main attractions that includes:

Simply Bhutan Museum: The newly commissioned museum depicts the ancient Bhutanese architecture which is being lost to modernization. The best part is the portrayal of the age-old lifestyles of the Bhutanese people.

After breakfast drive to visit **Chang Yul Park;** Nestled along the Wangchhu, the seven-acre Chang Yul Park beautifully blends vibrant Bhutanese heritage with multifunctional green spaces for the community. Chang Yul Park is divided into three main zones. The north zone, the central zone, and the south zone. The central zone is mainly for the community, plaza community, and interaction space. And then it also includes a playground called an adventure play area for kids. In the north, we have one of the largest rose gardens in Thimphu. All the pavements and the subsoil developments are done in nature-based, which is more sustainable to the environment.

Folk Heritage Museum: Giving an insight into the culture of Bhutan under one roof, Folk Heritage Museum preserves and flaunts the folk tradition of the country. Set up in 2001, the museum is set up inside a three-storied house, having the soberest facade, which makes the place even more distinguished. Bhutanese cuisine, important trees, farming tools, household objects and whatnot! This impressive museum displays it all.

The oldest historical place in Bhutan, the National Folk Heritage Museum houses the finest and most intricate details of Bhutanese culture within its walls. Giving information about the rural life of Bhutan to tourists, the entire setup has been made such that the tourists can actually feel as if they are a part of this rich culture.

This site has been recognized as a most sacred place and visited by ShabdrungNgawangNamgyal in 1646 and now visited by all Bhutanese at least once in their lifetime.
